# Grants Management Overview

**GMS360°** gives you complete control of your integrated giving program.

Imagine a grants management system that empowers you to oversee your community, your giving and your impact, using the processes that work for you. That's SmartSimple's **GMS360°**.

Grants Management Process

## Program & Funds

- Link complex projects to multiple funding sources.
- Share common elements across all funding opportunities.
- Integrate with any accounting system to transfer payment records.

## Applicants

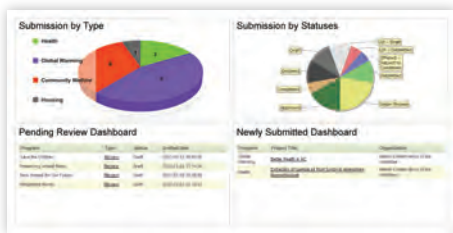

- Eliminate redundant data entry and ensure accuracy by enabling applicants to edit individual and organizational profiles.
- Grant applicants can save submissions in draft and complete later to avoid lost time and data.
- View application history and deadlines to improve application success rates.

## Grants Administration

- Interact seamlessly with internal and external review teams and individuals.
- Communicate with stakeholders and manage relationships online.
- Generate approvals, declines and other branded notifications.

## Board Members & Executives

- Designate access to program summaries, reports, dashboards and more.
- Create automatic workflows and notifications for reviews and proposals.
- Increase transparency by providing stakeholders with personalized portals.

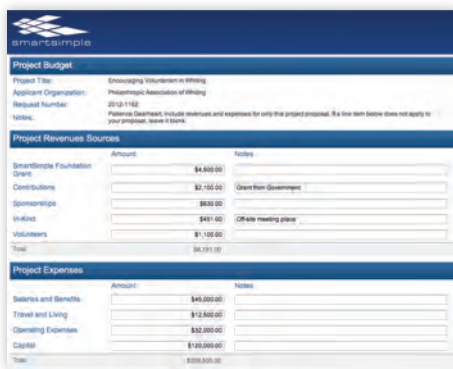

## On-Demand & Automated Reports

- View reports anytime, anywhere with the click of a button.
- Capture detailed information, including grant progress, resource allocation, and more.

## Role-Based Portals

- Stakeholders access **GMS360<sup>o</sup>** through personalized portals based on their relationship with your organization.
- Portals are fully branded with your organization's look and feel for a consistent user experience.

## Budgets

- Eliminate the need to upload spreadsheets with convenient online budgeting.
- Oversee multiple versions of a proposed budget: original submission, revised, final approved and post-approval options.

## Integration, Branding & Engagement

- Integrate the **GMS360<sup>o</sup>** system with your website.
- Ensure consistency with your existing branding.
- Publish calendars and reports on your website to improve community engagement.

## Eligibility & Background Checks

- Create organization and application eligibility questions, confirm IRS registration and verify organizations and individuals against the OFAC database.

## Collaboration

SmartSimple delivers technology that connects communities and gives diverse teams from various locations the ability to work together.

SmartSimple's CRM offers a holistic view of your grants process. All activities and grant applications are linked to the organizational and applicant profiles. Relevant documents, including tax returns and annual statements, are easily uploaded to applicant and organization profiles; none of their contact information needs to be entered more than once.
